

FTR

Model 4

Product Specifications Sheet

More Room. Same Relentless Performance.

The Model 4 delivers the same superior ride and lithium-battery reliability FTR is known for, now with expanded passenger capacity and added versatility.

Designed for golf courses, communities, and recreational properties that need more seating without sacrificing ride quality or premium comfort.

ALL-DAY COMFORT

Diamond-stitched leather seating delivers elevated comfort and a refined experience for both front and rear passengers.

STYLISH RIDE

Distinctive 14" wheels and exterior styling create a refined appearance that elevates the Model 4 beyond traditional carts.

CONNECTED DRIVE

Integrated touchscreen display combines entertainment, diagnostics, and battery monitoring into a single control system.

BUILT FOR GROUPS

Expanded seating capacity makes the Model 4 ideal for families, guests, customers, and community transportation needs.
